"Fresh from the Gardens"

Handicrafts In The West

Shortly after the conclusion of the World's Grain Show held at Regina last summer the question arose as to the uses to which the big quarter of a million dollar Grain Show building could be devoted, not only in connection with the annual provincial exhibition but throughout the year. Many suggestions were advanced, but few had any relation to the subject of the use to be made of the building in connection with the annual Provincial Exhibition, possibly because of the size of the structure, the great extent of floor space, and the difficulty in these recent years of finding necessary funds to promote any large development.

The writer now proposes to advance an idea for the consideration not only of the Regina Provincial Exhibition Board, but of people throughout the three prairie provinces. This idea is advanced because it is somewhat in keeping with the international character of the project for which the building was originally constructed; because it presents an opportunity to encourage and develop one aspect of our western life that are in danger of neglecting; and because it appears to be a feasible undertaking at the present time, and, in fact, may even provide a small source of income to many people who are in dire need of every cent they can earn.

The suggestion we advance is that this building erected to house grain and other exhibits of the nations of the world, or at least a portion of it, should continue to be utilized each year for the display of the handicrafts of the people of the many nations who constitute such a large proportion of the population of Western Canadian provinces. In other words, that the various racial and national groups throughout the West be invited, encouraged, even urged, to revive their home handicrafts on a larger scale than before and to exhibit the same, the understanding being that the exhibitors have the right to sell the goods they have placed on exhibit if they so desire.

What, we ask, could provide a more colorful, interesting and instructive exhibition than a continuous series of booths each devoted to the handicrafts of different national groups, presided over by men and women of each particular group, dressed in their national costumes?

Some years ago the C.P.R. sponsored the holding of exhibitions of handicrafts throughout Canada, and these were attended by thousands of interested visitors. In conjunction with such exhibitions, festivals and concerts featuring the music of different countries were held. Recently, at Regina, a highly successful folk festival and dance was held in which hundreds of citizens of non-English speaking nationalities participated, each providing their own orchestra or band.

The people of every nationality have some worthwhile contribution they can make to the upbuilding of this Canadian nation. These people have chosen Canada, yes, Western Canada, as their home; they are bringing their children up to be Canadians. They have a wealth of tradition arising out of the past histories of their native lands, of music, poetry, literature, and a bewildering array of handicrafts to contribute that will add richness to this young nation now in the making. They should be encouraged to make this contribution. It should be impressed upon them that they are "welcome in Canada; that so far from asking or expecting them to forget their old homelands and the customs and traditions and handicrafts of their native countries, we want them to add these as a contribution to the greater beauty and strength of Canada."

Why not, therefore, utilize at least a portion of the fine World's Grain Show building to develop a little annual international exhibition put on by the people of many lands now resident in our midst on these Western plains? Let us have the flags of all nations waving again over booths filled with the arts and handicrafts of Germany, Poland, Norway, Sweden, Iceland, Belgium, Holland, Italy, Jugoslavia, Czechoslovakia, Roumania, Ukraine, Greece, Russia, Austria, Hungary. Let us include China and Japan, who have representatives in our midst. And the Irish, the Scotch, the Welsh should join their contributions with the English, and the French-Canadians to round out the whole.

At the World's Grain Show last summer there were a few of these handicraft exhibits and they were most interesting although rather overshadowed by the magnitude of the show in other respects. But with one wing of the big building arranged in attractively decorated national booths, with exhibits of the arts and handicrafts of each nation on display, with national flags and national costumes—and all of which could be provided by and through people now resident in the prairie provinces—a use can be made of the Grain Show building which will return a dividend to Canada, not in cash perhaps, but in nation building. At the same time activity in national arts and handicrafts will be encouraged, these arts and skill in workmanship will not be lost, and, in fact, a valuable and growing domestic market developed for hand-made products from many a humble and needy home.

Pitchblende Shipped Out

Nine hundred pounds of pitchblende concentrates were brought down from Great Bear Lake, by Pilot Matt Berry, Mackenzie Air Services, and shipped east by rail to Le Blain brothers radium refinery at Port Hope.

Lamb Condiments

The condiments for lamb and mutton are as follows: Mint sauce with roast lamb (hot or cold); currant jelly with roast mutton (cold); caper sauce and spiced fruits with boiled lamb and mutton (hot).—Dominion Department of Agriculture.

Weary Days—Sleepless Nights Wrack the Nervous System

Men and women toss night after night on sleepless beds. Their eyes do not close, the refreshing noises that should ease those nerves are right. They are irritable and nervous, weak and worn out, and everything looks dark and gloomy.

Milburn's H. & N. Pills is the remedy that is required to restore them the blessing of good health. They bring back the sound refreshing sleep, tone up the nerves, and impart that sense of buoyancy to the spirits that is the result of renewed mental and physical vigor.

Strength In The Air

Official Air Ministry Satisfied

With Britain's Efficiency

Our stout press so frequently sets our flesh creeping by allusions to our unpreparedness to ward off air attacks that it is refreshing to hear the views of a real expert.

I had a talk to-day with one of the high officials of the Air Ministry. He scoffed at the notion that we should imitate Italy in constructing "funk holes" beneath our arterial roads. He was not even greatly concerned that civilians should be trained in the use of gas masks. When I reminded him that in the matter of aeroplane squadrons we were very low down in the list of the seven big powers, his contention was that it was not aeroplanes that counted, but the efficiency of the pilots. Aeroplanes could be turned out at the rate of hundreds a month if necessary.

"Where do we stand?" I asked.

"Measured by this room," he said. "We are right up to the ceiling. And the Power that comes next is America. Her position would be just about two-thirds up the wall."—London Cor., Ottawa Journal.

Strange Story From Desert

Captive Legionaries Have Been Slaves Of Arabs For Years

The members of a colony of captive legionaries who, forgotten by the world, have for many years labored under Arabs in the burning heat of the desert, are now beginning to find their way back to civilization. The first intimation of the existence of such a colony came when an ex-legionary named Lopez Posada, who had been regarded as dead for many years, three months ago staggered into the Spanish garrison of Villa Cisneros, in South-West Morocco, completely exhausted. The Spaniard told a strange tale of how bands of legionaries of all nationalities hold captive and held under conditions of virtual slavery for Arab taskmasters.

A Jew named Ascan Cohen later arrived in the French zone with a similar story. Thereafter a Spanish commission took up the matter and after negotiations aided by friendly Saharan sheiks, the first party of ex-legionaries arrived at Cap Juby, near Villa Cisneros.

Good Business With Japan

Value Of Exports In 1933 Over Million Dollars Higher

An increase of more than \$1,000,000 in Canadian exports to Japan during the past year made one of the bright spots of Canadian foreign trade in 1933, says a trade review of the department of trade and commerce. Exports increased from \$11,995,837 in 1932 to \$13,001,704 in 1933.

Exports of wheat flour to Japan increased in value from \$383,032 in 1932 to \$609,307; wood pulp shipments increased in value from \$884,332 to \$1,444,284 and scrap iron from \$18,069 to \$390,653. On the other hand, however, market demands were shown in the value of exports of wheat and lumber.

YOUR LIVER'S MAKING YOU FEEL OUT OF SORTS

Wake up your Liver Bile

No Colic Needed

When you feel like depression, sour on the world, that's your liver bile talking. Take daily 2 pounds of liquid bile into your bowls. You feel making you feel refreshed, healthy, and food a scounding and decaying fiddle. You feel making you feel refreshed, healthy, and food a scounding and decaying fiddle.

You need a liver stimulant. Caren's Little Liver Pill is the best. It is a liver stimulant. Sure. Ask for them by name. It helps substitute 5¢ at all druggists.

Russia Has Costly Project

Details of a \$55,000,000 project just started in Russia for the study of the "human body, ill and healthy, and from every angle," including eugenics and heredity, were made public by a two-man commission which has been studying American hospitals and medical centres since last November. The project, to be known as All-Union Institute of Experimental Medicine, is located in a suburb of Leningrad, called Bolshoi.

Planning Huge Stadium

Germany Getting Ready For Olympic Games Of 1936

Germany is rebuilding for the Olympic Games of 1936 the great stadium which was constructed for the Olympics of 1916, cancelled because of the war.

Werner March, son of the original builder, is in charge of remodelling the huge arena in the Grunewald, just outside of Berlin, and plans to make it more complete even than the Los Angeles stadium.

It is planned that the main stadium will be surrounded by a tennis court, a cycling ground, and a swimming pool, with accommodations for 440,000 spectators. Furthermore, a ground for equestrian sports will be erected. A home for athletes, to be called "The Home of German Sports," is also planned, as well as buildings with social centres for the athletes participating at the 1936 games.

In issuing demands for the reconstruction, Chancellor Hitler declared: "Germany receives herewith a sports arena the equal of which has never been seen anywhere in the world."

The German sports commissioner, Von Tschammer-Osten and the minister of interior, Wilhelm Frick, have full powers for conducting construction work. The money needed for the purpose has already been appropriated by the ministry of finance.

If all is achieved as foreseen the German Olympic-Stadium for 1936, it is claimed, will be the greatest and most practical sports centre in the world.

Protective Association

Toronto Landlords Have Problem With Delinquent Tenants

Toronto landlords have formed a protective association. Landlords should not be burdened with the double burden of providing both free rent and most of the city's taxes, the meeting agreed. It was attended by about 200 people and lasted more than three hours.

H. L. Rogers, former alderman, was the principal speaker. "It is unfair," he declared, "that the landlord should be faced with the ugly alternative of having either to turn a delinquent man out on the street or give him free rent. It is dishonest to make you pay for relief through taxes, and then to make you pay rent for the poor when others who own stocks and bonds have to pay no more than income taxes."

Engineer Of Famous Train Receives Medal

New Year's Honor Conferred On Driver Of Royal Scot

On the platform of Euston station, from where many travellers have started a journey to Canada, J. H. Thomas, secretary of state for dominions, presented William Gilbertson, engineer of the famous Royal Scot, with the medal of the Order of the British Empire, conferred on the driver in the New Year's honors lists in recognition of the great tour of the train through Canada and the United States.

Out of a million eggs handled last year by dock workers at Brisbane, Australia, only one was broken.

Too Much "Party" Last Night

Too Much Food, Late Hours, Smoky Atmosphere

YET—This Morning No "Acid Headache"—No Upset Stomach

Scientists say this is the QUICKEST, SUREST and EASIEST way to combat FEELINGS of over-indulgence—in alcohol or other stimulating foods.

TAKE—2 tablespooms of Phillips' Milk of Magnesia in a glass of water after the meal. In the morning take 2 more tablespooms with the juice of a WHOLE ORANGE. That's all! Tomorrow you'll feel great!

Or take the equivalent amount of Phillips' Milk of Magnesia tablets. Each tablet is equal to a teaspoonful of the liquid.

Get genuine Phillips' Milk of Magnesia in the familiar liquid form, or the new, more convenient tablet form. Both are available at all drugstores. Be sure it's PHILLIPS'—the kind doctors endorse.

Evidence Leads To Belief That There Is A Gradual Recession Of The Ice Caps At The Earth's Poles

Science is at it again, this time taking away the reputation of the Arctic. That resort is getting warmer. Not much, it is true, but give it time—geologic time, that is. Recently it was discovered that the Cornell glacier, in Greenland, which in 1896 was four hundred miles north of the Arctic Circle, is now about three-fifths of a mile farther forward. Further it was found that in tundra districts of our northland the forest line is advancing at the rate of one mile a century.

However, it will be quite some time before skating will have to be abandoned, for there is a matter of five million square miles of ice at the Antarctic and 1,000,000 in the North, and, anyway, scientists give it as a considered opinion that we are now living in the Quaternary ice age, which began about 600,000 years ago. They add, just in case there are some laymen who consider this ice at the poles and elsewhere as a settled earth policy, that there have been various mild intervals which are measured by tens of millions of years.

When the ice melts it will mean a lot of increase in the oceans and perhaps in the lakes, and there is even danger that some sections of the earth will be completely submerged. But there is no need yet to build rafts. People dwelling in these parts, however, have no particular difficulty in looking forward for they have evidences all about them of times long before this geological age. In the old lake shores, in glacial remains, and in fossils that bespeak a time of vast greennesses where the white silence of the North now reigns.—Winnipeg Free Press.

A New Milking Apparatus

INVENTOR SECURES PATENTS ON NON-SPLASHABLE MILK PAUL

The new sanitary, non-splashable milk pail which, according to its inventor, Charles O. Gysler, 37, will have "Bossie" buffaloes, was explained to newspaper men at Winnipeg. When friend cow feels the urge to spill the milk with a well placed kick, it will be just wasted effort, Gysler said.

Patents on the invention have already been secured at Washington. Gysler stated one United States manufacturing firm considers the patents worth \$25,000 to them.

An inset chamber on top of the milk pail is the secret behind the revolutionary milking apparatus. After filling the chamber with water, Gysler demonstrated the "holding power" of his pail by kicking it across the room. No water was spilled.

Poultry On The Prairies

Nearly Half Of The Poultry Of Canada In Prairie Provinces

That the prairies are appreciating the poultry route is being recognized, says the Dominion Poultry Husbandman, for in three years the poultry population of the three prairie provinces increased over four million, and in 1931 nearly one half of Canada's poultry was upon the prairies. In the whole of Canada there is only one province—Ontario—that has more poultry than Saskatchewan and Alberta. Of the millions of bushels of grain consumed by poultry each year, nearly half of it is fed in these three provinces. Saskatchewan alone has nearly as many head of poultry as the provinces of Prince Edward Island, British Columbia, and Quebec combined.

Could Use Seven Million

British Columbia building requirements for provincial purposes alone in the next five years will not be less than \$7,000,000, an unofficial survey conducted at the legislative buildings revealed. No such program could be financed by the province unaided; however, it was stated.

Vitamin C In Apples

STUDY SHOWS BALDWIN IS RICH IN THIS HESPER

The Massachusetts Experimental Station has recently started a study of the vitamin contents of the leading apples of the northeast.

Information on the Baldwin and McIntosh varieties has been published which shows that the Baldwin is a rich source of vitamin C, while the McIntosh supplies very little of this important food supplement.

Spraying with lime sulphur and arsenate of lead had no effect on the vitamin content. Fresh cider from the Baldwin was found about one-half as valuable as the fruit itself, while pasteurized or benzene-treated cider lost practically all its value. Fresh apple sauce, both strained and unstrained, while lower than the juice in vitamin, was useful, but in canned apple sauce vitamin C is practically destroyed.

England Fighting Potato Bug

COMMON COLORADO BEETLE IS GIVING FARMERS CONSIDERABLE TROUBLE

The Colorado beetle or potato bug, which made its appearance in some parts of the United Kingdom this past summer and caused damage to the potato crops and led to a campaign being begun for its extermination, is still causing uneasiness.

It has not been disposed of by any means, and in preparation for next season's attack on the crops it is "digging itself in" in a manner that is somewhat upsetting to potato growers.

Tisbury, Essex, is the scene of the beetle's latest exploit, according to reports. While ministry of agriculture officials were sterilizing the soil near the docks, they found four beetles at a depth of two feet. The spot was near the allotment on which beetles were found in August following the discovery by a ministry official of a crushed beetle in the roadways.

Officials of the ministry have been at Tilbury for some time in connection with the matter. When the presence of the beetle is suspected, sporadic digging is carried out. If the hibernating insect is discovered, the whole adjoining land is fumigated with carbon disulphide, injected by a kind of glorified hypodermic syringe.

One of the men who has been fighting the beetle under the direction of the ministry said he had been occupied, off and on, since last August. "We found several specimens in different places," he said.

Prizes For Quality Bacon

CANADIAN CHAMBERS OF COMMERCE URGED TO ENCOURAGE BETTER GRADE

Regina Board of Trade has put its seal behind the Canadian bacon hog policy and is offering a trophy for the best winter bacon litter from the Regina zone, and is offering prize money of \$50 to add to the regular classification for the best group of three hogs at the Regina fall show and the champion boar and sow, if from the Regina zone. In addition to this they are suggesting to the Chambers of Commerce that there be united action by Boards of Trade for the bacon hog policy, and that each Board of Trade sponsor similar encouragement in its own locality.

An ancient well, 250 feet deep, has been found at Falahim, Palestine, and is relieving the drought.

SPRING ATTACK BY JAPAN WILL FIND SOVIET READY

That war with Japan is regarded as almost inevitable this coming spring, and the Soviet Government is concentrating large supplies of food, munitions and aircraft at Vladivostok, the Russian seaport that is only 700 miles from Tokyo. Commissar of War, Clemence Voroshilov, (top, right), is reported to have been utilizing the Trans-Siberian Railroad for many months for the transportation of men and supplies to the point where he is believed to be the first object of a Japanese attack. Observers say the torch that may be the signal for a Japanese attack may be the coronation of Henry Pu-Yi (lower right), as emperor of the Japanese controlled state of Manchukuo on March 1. In announcing his would follow the policies of his predecessor, General Sadao Araki, the new Japanese Minister of War, General Senjuro Hayashi (top, left), is believed to have dispelled the hopes of peace that were born with Araki's resignation.

Graphic Description Is Given Of Conquest Of Mount Everest By Intrepid British Aviators

Ideas Worth Imitating

RHODE ISLAND SCHOOL CHILDREN INTERESTED IN PLANTING TREES

Rhode Island is experimenting with a novel reforestation plan which will make many imitators if public funds ever again become available for such things. It is an idea deserving to be put on file for future use.

On five acres of land donated to the town the school children of West Greenwich are planting 4,500 trees donated by the State Forestry Association. An expert forester bosses the planting job.

Thus will a new forest be planted, children schooled in forestry and the arts of reforestation brought home to an entire community. The school children will plant and cultivate their forest and protect it from insect enemies, and will go out into the world knowing more about their parents' arts about trees.

With the constantly increasing importance of reforestation the school forest idea constitutes a practical contribution to rural education. Without involving a large expenditure of public funds it furnishes an opportunity for public spirited citizens to make a real contribution to their community and to posterity.

Canadian Wall Paper

EXPORTS ARE HIGH TO SEVERAL COUNTRIES INCLUDING JAPAN

There must be a very large number of homes in the United Kingdom whose interior decoration is Canadian wall paper, for the export of that commodity to Great Britain is a large one every month. In December, for example, it was 53,000 rolls. The same may be said of Australia and New Zealand, whether 32,000 rolls went Japan uses considerable Canadian wall paper and the fact that Italy does also—the country of all countries that appeals to us as a nation of artists—is testimony to the standard of that product of the Dominion. The December export was 90,538 rolls, compared with 66,768 in December, 1932. The 1933 export of 819,582 rolls was somewhat less than in 1932.

Although British aviators have conquered the roof of the world, soaring above Mount Everest in one of the most dangerous of earthly adventures, the 20,000 feet of towering rock in the lofty Himalayas will still lure daring men with a new challenge resulting from that intrepid conquest last April. Air Commodore P. F. M. Fellowes, D.B.O., A.D.C., told an audience of more than 1,000 at the Chateau Laurier, Ottawa.

Commodore Fellowes, who was leader of the Mount Everest expedition which sent two British aeroplanes over the hitherto uncharted mountains, spoke under the joint auspices of the Canadian Geological Society and the Ottawa Women's Canadian Club at the only lecture he will give in Canada.

Pointing to a tiny black patch on the rugged side of Mount Everest as seen in a vertical photograph taken in the famous flight, Commodore Fellowes said geologists who had studied the spot had decided it must indicate a lake of hot water in a region of rock, ice and snow. This was indeed a lure to attract explorers in the future, he predicted, to prove or disprove the geologists' theory.

Using a series of remarkable still photographs and several reels of motion pictures, Commodore Fellowes carried his audience along every step of the expedition, from the preparatory stages in England in November, 1932, to the return of the two planes after their successful flight over Everest on April 2.

Months were spent in studying weather conditions, ascertaining the last possible day on which a flight could be made with a possibility of seeing the mountain clear of clouds. Elaborate preparations were made to safeguard the personnel against the 50 below zero at 30,000 feet above sea level. Each man wore a heavily padded uniform, equipped with oxygen supply, a microphone for talking to his mates, and lined with electric wires for heat.

Observers, while clad in this paraphernalia, which made a man feel as if he had pulled a heavy sack over his head, had to take pictures while standing in a 120-mile-an-hour wind, holding in their hands an 18-pound camera.

Political difficulties were overcome through the co-operation of the Maharajah of Nepal, who gave permission for the expedition to fly over his little-known country. However, the aviators were scrupulous in obeying the instructions of the secretary of state for India not to fly any further into Tibet than was absolutely necessary because of the fears of the people of that land over such a pilgrimage.

Commodore Fellowes summarized the reasons for the flight as the pleasure of a pleasant adventure, the desire to conquer the last of earth's great geological obstacles, the need for a survey of the southern approaches to Everest, for information concerning aerial disturbances in the vicinity, and for some good pictures.

Jury Fired For Verdict

Because they acquitted Thomas Camarote on charges of running a numbers game, Philadelphia jurors were deprived of pay for their services. The jury fees for the ten men and two women amounted to \$21 each. "This is a miscarriage of justice," Judge Walsh remarked, "and a disgrace to yourselves, as well as to the community. Because of your outrageous verdict, I am going to discharge you from further service and fine you your whole pay."

New Swimming Equipment

An inventor in France has designed equipment to enable man to swim like a fish. The invention consists of a couple of paddles attached to the hands, each covering an elliptical surface of 40 inches square, and a paddle, double-tail area, attached to the feet.

WORLD HAPPENINGS BRIEFLY TOLD.

Approximately \$15,000,000 would be required for a works program to meet British Columbia's employment demands, Premier T. D. Patullo announces.

Capt. D'Arcy Martin, of Victoria, has been named sergeant-at-arms in the British Columbia legislature, it was announced by H. G. Perry of Prince George, the speaker-designate.

The decision of Mr. Speaker Black to stop women knitting in the galleries while listening to debates in the house of commons was taken as a blow at the yarn making industry by one company.

Senator Raoul Dandurand, K.C., former president of the assembly of the League of Nations, has been named president of the University of Montreal. He succeeded Senator F. L. Beliveau, who died Sept. 1, 1933.

Establishment of a birth control clinic in Winnipeg will be the aim of the Winnipeg Birth Control society as soon as funds permit, a meeting of the organization here was told by Mrs. W. F. Osborne, chairman of the society.

"Time is running against the friends of disarmament," warned Sir John Simon, secretary for foreign affairs, after a crowded and deeply attentive house of commons as he initiated a full-dress debate on disarmament.

Amos Williams, 76, veteran of the North-West Rebellion of 1885 and staff-sergeant of the famed 90th Winnipeg Rifles (Little Black Devils), until a few years ago, died in Winnipeg recently. Mr. Williams came to Manitoba 57 years ago from Cornwall, Eng. William Williams of Moose Jaw is a son.

Are You WEARY?

Do you find it hard to do things every day? When body and brain feel suppressed, apathy, elimination of body wastes is probably the result. You can't be sure you are even though you are as regular as can be in your habits. You know there is no guarantee of completeness. Follow these simple rules: Get up earlier, sleep soundly, eat lots of fresh fruit and vegetables, exercise or twice every week take a bracing, invigorating walk. Take a long, deep breath, draw well and purify your whole system. You will feel better and have less "headaches" days. Get Amherst Liver Salt for the new, large bottle. See Agents. J. H. A. Huston Co., Ltd., Toronto. 2

Deal With Hoppers

Says Farmers Should Observe Instructions Of Entomologists

Wheat acreage reduction in the next crop year would offer no difficulties if the farmers in the grass-hopper-plagued sections observe the instructions of the entomologists, assisting them in fighting this plague, Hon. W. M. Aseltine, Rosewood, told the senate.

The farmers have been advised not to attempt wheat seeding on areas over which the insects laid their eggs last fall, and that area would constitute more than would be necessary to achieve the 15 per cent. acreage reduction, he said.

"There is no instrument in my band," says a well known orchestra leader, "that I cannot play equally as well as the player himself." He seems pretty good on his own trumpet, too.

Little Journeys In Science

BY GORDON H. Guest, M.A.

Flashing their messages in brilliant hues across the skies, neon signs have in recent years become a familiar sight in almost every community. They receive their name from the gas, neon, which is used in their manufacture, and which is one of a rare family known as the inert gases.

Neon was discovered in 1904 by Sir William Ramsay, an English chemist, but it was not used extensively for commercial purposes until the last decade. It is obtained from the air, where it is found in small amounts, namely in the ratio of twelve parts of neon to one million parts of air. Its chief uses are for illumination, for testing spark plug in gas engines.

Neon signs consist of glass tubes containing small quantities of the gas. An electric current is passed through the tube, causing the neon to become illuminated. The glow draws well and invigorate your whole body. Get Amherst Liver Salt for the new, large bottle. See Agents. J. H. A. Huston Co., Ltd., Toronto. 2

Jesus Came Not To Call the Righteous, But Sinners. 9:10-12. How could Matthew better honor his new-found friends than by letting his friends know him, too? He invited Jesus and others to come in and have a meal at table, many publicans and sinners entered, and sat with Jesus and the disciples. "Publicans and sinners" are often classed together in this connection. The word "sinners" in this context does not necessarily mean evil men; more often it means men who fail to perform the stated rites required by their religious leaders. The Pharisees regarded themselves as sinless, a man who transgressed the traditions of the elders, than a man of immoral life. Pharisees were also unwilling guests at the feast. It was the world that they despised.

The form of this argument is, therefore, that the physician labors among the sick, so the physician labors among the sinner. Their failure to apply this principle, that they did not know their true meaning, and Jesus rebuked them, saying, "Go ye and learn what this means." The form of this argument is, therefore, that the physician labors among the sick, so the physician labors among the sinner. The Pharisees were particular not to eat with publicans and sinners lest they break one of their ceremonial laws, but they would not show them the kind of love that is for service, the externals of their religion, and not for mercy, the religious spirit.

"For I came not to call the righteous"—and the Pharisees deemed themselves righteous—"but sinners." The Pharisees were particular not to eat with publicans and sinners lest they break one of their ceremonial laws, but they would not show them the kind of love that is for service, the externals of their religion, and not for mercy, the religious spirit. "For I came not to call the righteous"—and the Pharisees deemed themselves righteous—"but sinners."

Good For All Time

Silver tickets 176 years old and good for all time are still used by their holders as passes to the best seats in Britain's oldest theatre, it has been revealed. This playhouse is not in London, as might be supposed, but is the Theatre Royal, at Bristol. The silver tickets, admitting the bearer to any performance were presented to subscribers when the house was inaugurated in 1766, and mostly have been handed down to their descendants.

Long Drawn Out Story

Walter Thompson took a book from the Atchison, Kansas, library 36 years ago, read half of it, and then took it back to the library. A few days ago Mr. Thompson went back to the library, got the same book and finished reading it.

Yes, life is a puzzle, but isn't it fun to work it?

SUNDAY SCHOOL LESSON

FEBRUARY 18

JESUS' POWER TO HELP

Gospel Text: "I desire mercy, and not sacrifice; for I came not to call the righteous, but sinners" Matthew 9:13.

Lesson: Matthew 8:1-9:34.

Devotional Reading: Isaiah 35:1-6.

Explanations And Comments

Jesus Came Not to Call the Righteous, But Sinners. 9:10-12. How could

Matthew better honor his new-found friends than by letting his friends know him, too? He invited Jesus and others to come in and have a meal at table, many publicans and sinners entered, and sat with Jesus and the

disciples. "Publicans and sinners" are often classed together in this con-

nection. The word "sinners" in this context does not necessarily mean evil men; more often it means men who fail to perform the stated rites required by their religious leaders. The Pharisees regarded themselves as sinless, a man who transgressed the traditions of the elders, than a man of immoral life. Pharisees were also unwilling guests at the feast. It was the world that they despised.

The form of this argument is, therefore, that the physician labors among the sick, so the physician labors among the sinner. Their failure to apply this principle, that they did not know their true meaning, and Jesus rebuked them, saying, "Go ye and learn what this means." The form of this argument is, therefore, that the physician labors among the sick, so the physician labors among the sinner. The Pharisees were particular not to eat with publicans and sinners lest they break one of their ceremonial laws, but they would not show them the kind of love that is for service, the externals of their religion, and not for mercy, the religious spirit.

"For I came not to call the righteous"—and the Pharisees deemed themselves righteous—"but sinners."

INTEREST CUT IS URGED TO SPEED UP BUSINESS

Ottawa—Drastic changes in the general financial policy of Canada were urged by one of its supporters in the house of commons, James H. Stitt, Const., Selkirk, Man. He suggested compulsory reduction of interest, conversion of government debts at lower interest rates and the issuing of \$100,000,000 in cash to establish a reconstruction purchasing board.

Canada stood at the economic crossroads, the Manitoba member said, urging the government to accept a motion proposed by George Coote, United Farmers member for MacLeod. It proposed a large scale national building program financed by new currency, to escape interest charges. No decision was made on the Coote motion, the debate not being concluded.

"There is an issue facing the government to-day, the like of which has never faced any government in Canada," said Mr. Stitt.

"To the extent to which the government faces that issue it will be either victorious or defeated and the welfare of the great mass of the Canadian people will be enhanced or the opportunity lost."

Uncontrolled inflation was not acceptable to him, the Manitoba member continued, "I believe the kind of preaching of sound money we have had in this country is wholly unsound. It has been sweet sounding for the receivers of interest but it has meant fury for the masses of Canadians."

If the government placed \$100,000,000 behind a reconstruction purchasing board, Canadian industry would receive \$1,000,000,000 in new orders, Mr. Stitt predicted. The board would act as a hopper, where farmers could place orders and receive goods, attaching liens on to their property without interest. The orders would go to Canadian manufacturers, financed by the \$100,000,000 fund.

Canadians were being placed in serfdom by "this straight-jacket of interest," Mr. Stitt said, advocating compulsory rate reductions. He proposed legislation cutting 33½ per cent off interest rates payable in Canada under all forms of contract. In addition, Canada might approach United States owners of Canadian bonds through the international joint commission, seeking one-third reduction rates in that country. Overtures might be made to English owners of Canadian bonds.

Claim To Be Investigated

Natural Resources Compensation To Be Discussed February 19

Edmonton—Investigation by special commission of Alberta's claim to compensation for natural resources since the province was formed in 1905 is scheduled to get under way at Ottawa on February 19, according to information reaching here. Mr. Justice Tweedie of the Alberta supreme court will be Alberta's representative on the commission.

Saskatchewan will be joined with Alberta in pressing for compensation.

Business Shows Improvement

Montreal—There has been a distinct improvement in business in general during the past few months and this has been immediately reflected in the output of electricity for industrial purposes. James S. Morris, president of the Montreal Light, Heat and Power Cons., told the annual meeting of shareholders.

Noted Mountain Guide Dead

Cranbrook, B.C.—Conrad Kain, 50, one of Canada's most noted Alpine guides, is dead. He was credited with the only ascent of treacherous Mount Farnham in the Selkirk range and had accomplished many other notable ascents.

W. N. U. 2033

Disorders In Paris

Inability To Balance Budget Factor In Internal Trouble

New York—The serious disorders in Paris commanded undivided attention in Wall Street because of the importance of France in international finance and her position as leader of the "gold bloc" nations.

The consensus in banking quarters was that if the republic is forced to abandon the international gold standard it will be because of conditions centring chiefly around balancing of the budget, rather than a desire on the part of other nations to bring about such an eventuality by imposing gold.

It was generally believed that if the country should declare any sort of ban against the export of gold, it would have an adverse effect in the major financial centres of the world only for the time being.

Bankers who have studied the situation in France for some time believe the inability of the several French governments which have been in power in the last few months to balance the budget is the one factor more than anything else contributing to the internal upheaval. Importantly also, they pointed out, is the inflated price structure in the country and the unfavorable trade balance.

Welcome At Naval Base

Prince George Starts Long Tour Of South Africa

Simons Town, South Africa.—With the customary naval ceremonial Prince George, who is starting a long tour of South Africa, was welcomed to the Simons Town naval base, headquarters of the African station of the royal navy.

After a civic reception, the king's youngest son visited the training ship General Botha and then went aboard the cruiser Dorsetshire, flagship of Vice-Admiral E. R. G. Evans "Evans of the Broke."

Canberra, Australia.—Tentative arrangements announced for the visit of Prince George, who will also visit New Zealand, provide for his arrival at Freemantle on Oct. 4. He will come direct to Melbourne to attend centenary celebrations of Victoria state. Later he will visit all the other states.

Elect Officers At Convention

Saskatchewan Man Heads Canadian Shorthorn Breeders' Association

Toronto.—The Canadian Shorthorn Breeders' Association in convention here, passed a resolution that all money paid in grants at various exhibitions must be paid over by the exhibitors on a proportionate basis to all winning animals and not on the prize list alone, as has been the practice.

The following officers were elected: President, N. M. Ross, Indian Head, Sask.; first vice-president, Duncan Marshall, Duncan, Ont.; second vice-president, William Walde, Stratford, Ont.; secretary-treasurer, G. E. Day, Guelph, Ont.

Amendment To Marking Act

Ottawa.—Designed to prevent deceptions in the marking of articles manufactured from precious metals, while at the same time stimulating such manufacture among the goldsmiths and silversmiths of Canada, a bill amending the Precious Metals Marking act, passing through its committee stage in the house of commons, now stands for third reading.

Supreme Judge Retires

Ottawa.—Mr. Justice Robert Smith has bidden farewell to his brother judges of the supreme court of Canada. A native of Cornwall, Ont., his retirement follows the reaching of the superannuation age of 75 years.

Probe U.S. Army Contracts

Washington.—United States army contracts, already laden with trouble for at least three persons, the administration accuses of lobbying for them, will become the vehicle for another congressional inquiry.

MAYOR RINFRET

Or Montreal, who with the city executive, has decided to ask the Quebec Legislature to amend the city charter so that in 1936 and thereafter elections will take place the second Monday of November instead of April as at present.

House Of Lords Reform

Lord Salisbury Moves For Consideration Of Reform Bill

London.—Lord Salisbury moved in the house of lords that a "humble" address be presented to the king, "praying" his majesty to consent to consideration of a bill for reform of the house of lords.

Lord Salisbury took this step because he had been criticized when he first presented the bill last December 19 for usurping the prerogative of the king. He was told he should have sought permission of his majority to introduce the measure.

The bill would limit membership in the upper house to 320, of whom 150 would be hereditary peers, 150 chosen from outside the hereditary peerage, royal peers, a reduced number of bishops and law peers. Lord Salisbury said his scheme would give the lords sufficient powers to prevent the country being hurried into vast changes without time to consider them.

Riding The Rods

Youth Is Killed Under Wheels Of Train At Jasper

Jasper, Alta.—R.C.M.P. were investigating the death of Bill Ross, 16, Edmonton, who died under the wheels of a train in the Jasper yards after he had jumped from the tender of the engine.

With Alex Hadden, Jasper, he was returning from Vancouver and was "riding the rods" between the tender and the first car. It is believed that he struck a slippery snow bank and skidded down to the rails. Hadden, when the train stopped at the station, returned to find the lifeless body.

Recall Revolution

Rioting In Paris Brings Back Memories Of Fateful Days Of 1871

Paris.—As mobs continued rioting in Paris, despite steps towards formation of a cabinet of national union, oldsters recalled the fateful communal revolution of 1871 when Frenchmen fought against Frenchmen in Paris, virtually under the eyes of the new German conquerors.

The Franco-German war ended with the capitulation of Paris, Jan. 29, 1871, after a five-month siege and bombardment.

On March 8, two weeks after the Germans had formally occupied Paris for two days, the commons was proclaimed; in other words, Paris was declared independent of any government except that chosen of its own people, regardless of any authority or central power.

The revolutionaries took over affairs and then began the second siege of Paris, a siege by French troops while victorious German troops looked on. The communards massacred foremost citizens, destroyed many fine buildings. The punishment was ruthless; 20,000 men and women were slain in the streets before the government regained control.

Railway Amalgamation

This May Happen Unless Conditions Improve, Says Hon. Cahen

Ottawa.—Amalgamation of the Canadian Pacific Railway and the Canadian National Railway will be unavoidable unless there is considerable improvement in operations during the present year, Hon. C. H. Cahen, secretary of state, said in addressing the annual meeting of the Ottawa Women's Conservative Association and the Conservative Women's Forum.

The minister said he did not speak for the government in making this suggestion, but that it was his considered opinion there would be no alternative to fusion of the two great railroads unless conditions improved.

Banking Committee

Fifty Members Who Will Compose Body Announced In House

Ottawa.—Of particular significance in view of the important banking legislation which will be considered during the present session, the names of the 50 members who will compose the banking and commerce committee have been announced in the house of commons.

Members from Saskatchewan include W. A. Beynon (Cons., Moose Jaw); C. E. Bothwell (Lib., Swift Current); T. F. Donnelly (Lib., Willow Bunch); E. R. Macmillan (Cons., Saskatoon); E. E. Perley (Cons., Qu'Appelle), and John Vallance (Lib., South Battleford).

ANOTHER POLITICAL PARTY FORMED IN ENGLAND

Our picture shows the leader of the newly-formed United British Party, Cecil Scrood Skeels, an organization opposed to the Fascists, seated in his office in London. Note the large Union Jack and a portrait of King George. Mr. Skeels, who will be the party's candidate in the coming by-election at Cambridge, says the United British is a "National Loyalist" movement which has been formed to take immediate action against the menace of a socialist dictatorship and the dark powers of delay, slyness and obstruction.

CATTLE EXPORT FROM CANADA TO BE GREATER

Calgary.—Jack Byers, manager of the Western Stock Growers Association, has received notice from Hon. H. H. Stevens, minister of trade and commerce, that cattle shipments to the United Kingdom, equaling those of 1932 would be permitted this year.

On June 30, an announcement from Ottawa in December had stated that shipments for the first six months of 1933 would be restricted to those in the same period of 1932.

In January, February and March of last year, a total of 7,863 beef animals left Canadian ports for the United Kingdom. To date this year nearly 5,000 head have gone to the overseas market and had the December ruling been followed, cattle men here say, exports would have shortly ceased.

According to the statement from Ottawa 20,200 head of cattle will be permitted to enter the United Kingdom in the six months of this year. In the first six months of 1933, 22,050 head left Canada, 9,667 of these being from western Canada of which 4,796 were from Alberta.

Byers said the situation for the last half of this year is still obscure. Advice from the United Kingdom indicates the quota against Irish and Canadian cattle had not had the desired effect, for British farmers' returns for home-produced beasts have not been increased, he said.

Simon Issues Warning

If Disarmament Efforts Fall Britain Must Strengthen Army

London.—Clear notice that if present disarmament efforts fail and a state of unlimited armament follows, the United Kingdom will have to reconsider the present levels of her own army, was sounded in the house of commons by Sir John Simon, foreign secretary.

Sir John, speaking in debate on disarmament, stressed the revised British plan for disarmament was a realistic plan seeking a reasonable compromise. He declared it would be followed up by a visit of Anthony Eden, lord privy seal, to Paris, Rome and Berlin to make sure the British proposals were completely understood.

The British belief that Germany's claim to equality of rights must be recognized before any progress can be made with all-round limitation and reduction of armaments was also set forth by Sir John. There was little likelihood of any peace while a great nation was held in subjection, he added.

Seriously Injured In Riot

Senator Menier Of Paris Once Well-Known In Canada

Paris.—Senator Gaston Menier, wealthy chocolate manufacturer, was beaten during the rioting in the Place de la Concorde. Knocked down and kicked, his condition was reported serious.

Senator Menier, seriously injured during the height of the Paris riots, used to be well-known in Canada where he formerly owned the large island of Anticosti, in the St. Lawrence river.

Highway Accidents

Philadelphia.—Take it from Captain W. J. Ruch, of the state highway patrol, there is no necessity for the modern automobile to be geared up to more than 50 miles an hour because "the average man is not physically or mentally capable of driving at greater speeds." That, says the troop commander, is the explanation for most accidents.

Proposed Aid For Defence

Singapore.—A proposal by the non-official members that the government of the Straits Settlements contribute \$500,000 toward imperial defence will be made when the legislative council meets on February 12.

A Comparison.

New York State Farmer-owned Co-op. societies have fared better during the past three years than private business, says New York College of Agriculture. Only 4 of the 200 purchasing or selling co-ops. in N. Y. State developed serious financial troubles, and in each of the 4 co-ops., according to F. P. Harper, of the College, the difficulty was brought on by the failure of the local bank with which the co-ops. did business.

Newspaper Laws.

Excerpts from newspaper Law printed for the benefit of any reader who may have mistaken ideas, says the Market Examiner, regarding his responsibility:

1—A postmaster is required to give notice by letter (returning the paper does not comply with the law) if the subscriber does not take the paper out of the P. and state the reason for it not being taken. Any neglect to do so makes the postmaster responsible to the publisher for payment,

2—If anyone orders his paper discontinued he must pay all arrears or the publisher may continue to send it until payment is made and collect the whole amount whether the paper be taken from the P.O. or not. There can be no legal discontinuance until payment is made.

3—Any person who takes a paper from the P.O. whether directed to his name or another, or whether he subscribes or not, is responsible for payment.

4—If a subscriber orders his paper stopped at a certain time and the publisher continues to send it, the subscriber is bound to pay for it if he takes it out of the P.O. This follows the principle that a man must pay for what he uses.

One Small Lesson.

If I survive the present slump and live to see another come, It will not find me such a chump, as I have been; so stupid, dumb.

I may be busted on that day, as I have been so often before; But I'll have no old bills to pay, no creditors around my door.

When the depression came along it found us to our ears in debt: For life had been one grand, sweet song, without a worry or a fret.

We bought all doodads we desired, as did our daughters and our wives,

And what we could not buy was hired, to brighten up our tangled lives.

Then came the slump that made us swear, remorseful for the way we'd splurged,

And we were all so deep in debt Our hat and whiskers were submerged.

And so I say, with other men, who moun't around their empty tents,

"I won't be such a chump again if ever I have fifty cents."

Here and There

The first event in the celebration of the Centennial of the City of Montreal took place at the Royal York Hotel in the closing week of 1933 when Mayor Stewart handed out laurels of "Centennial" bread to a large crowd of interested residents.

Emilia St. Godard and Leonhard Sappal, heroes of many body fought Dog Derby, will fight it out again in the Quebec Dog Derby of February 23-25 next to be held in Quebec City. Many other teams have already entered and special training events for the big show are being held.

A tip for the encouragement of the younger ski generation is given by the Canadian Pacific Railway in the company's inauguration of the annual school-age ski excursion at low cost to the Laurentians just outside Montreal. The special was heavily patronized by the youngsters.

Statistics recently issued by the Bureau of Railway News and Statistics show that the safest way to travel by rail is to travel by air. A year's operation of Canadian and United States railroads only one passenger was killed out of a total of 469,415,529 persons carried a total of 16,941,246,109 miles.

The old belief that women cannot wear high heels without injury to posture and health is dispelled by an "expert," J. S. Brower, shoe expert of Milwaukee, delegate to the National Shoe Retailers Association convention recently held at the Royal York Hotel, Toronto.

A Canadian Inter-collegiate ski meet, unique development in Eastern Canada as far as skiing is concerned, will be held at the Seignior Club, Montebello, end of February. Toronto University, Ottawa University, Mount St. Patrick's College in Ottawa are among the collegiate teams to be represented.

Snow shovels and twenty below in many places in Canada are replaced by mashes and 55 above at Victoria B.C., where a winter tournament swings into action at the Royal Colwood Course this year. It is similar to the famous tournaments of the Canadian Football and Vegetable Growers' Association and was followed shortly after by the convention of the Canadian Association of Tourists and Publicity Bureaus.

Gratification at the way in which the public is taking the new rail route, and between Edmonton Moose Jaw and Regina was expressed by H. R. Mathewson, general passenger agent, Canadian Pacific Railway, Winnipeg when interviewing the author at Regina. He had ample opportunity to view the running of the new "seven-a-day" train service between the two cities and was very pleased with the results being obtained.

The Regulation Mania.

Searle Grain Co.'s Bulletin: "Every time there is a decided upturn or downturn in the markets, there is a doctor ready with a suggestion of 'Regulation.' Even when market prices remained steady for any considerable length of time the medicine man is on hand with the suggestion that regulation should be applied in order to bring about an advance or a decline."

"Many people have the mistaken notion that when they regulate machinery, or the men who operate on the markets, that they are regulating prices. Nothing could be further from the truth. Market prices fluctuate in response to supply and demand, regardless of the machinery thru which the operations are conducted. Market prices are subject to laws which are higher and stronger than any government."—The Omaha Daily Journal Stockman.

The 1934 Chevrolet Is Showing Many New Features

This Popular Car, Improved to Greater Degrees of Comfort and Efficiency, to Be Shown in Stony Plain Soon.

Many noteworthy improvements are offered in the new 1934 line of Chevrolet Cars. Among the new mechanical features is the independent springing of front wheels—knee action wheels—that is claimed to give radical increase in smoothness of riding and ease of steering.

Greater room within the newly designed body is offered not only by an actual increase in wheel base but also by placing the engine further to the front by several inches.

The new Chevrolet engine is rated to deliver 80 h.p. at 3300 r.p.m. but greater economy is claimed thru the fact that this power is developed by means of cylinder bores only 3 5/16" in diameter. Angles of spark plugs and valves have been changed to give higher efficiency and more perfect control of mixture is claimed thru a new carburation and manifold system.

Fisher bodies with the well known no-draft ventilation are offered in all closed models and smart beavertail line in flowing streamline effects are continued from the last year models.

Rosenthal News.

A record crowd turned out at Rosenthal school house on Friday, Feb. 9, to take part in the final series of whist drives and raffles. Winners of grand prizes are—

Whist—Men, Julius Kulak 1, Ladies, Mrs P Kulak 1
Hullie—Men, Art Froster 1, Ladies, Miss Lily Kulak.

Over 110 tickets were sold in the raffle, and one picking out the numbers Hy Kornberger was found to have the lucky number 47, winner of the Melitone photograph.

The 2d lucky number was picked by R Patrick, No. 93, held by George Chernae, winning a set of fruit dishes.

The 3d lucky number was picked by Ruth Schmitke, the small daughter of Mr and Mrs Fred Schmitke, and on looking at the number found it to be 104, held by Henry, son of Ph Kulak, winner of a valuable teapot.

In all, 15 prizes were given, of a total value of about \$30.

The affair was such a tremendous success that the officials of the club decided to put on a pie social, dance, boxing and amateur acting on Friday Feb. 23.

This will unquestionably be the biggest event of the season and the most gigantic program that the Sports Committee has ever planned.

The deepest sympathy is extended to Mr and Mrs D T Davies and Family by the Rosenthal Residents on their recent sad bereavement.

Brightbank News

The wise farmers here are working on the "groundhog" bunch, and are getting ready for an early spring.

The principal indoor sport now is running seed grain thru the cleaner.

John Kotcherovsky spent the week end visiting friends here.

At the last meeting of the Baldhead club some members were in favor of taking a correspondence course in hair-restorative methods; while others were thinking of moving to the City and using their shiny tops for advertising purposes.

Since the farmers here have started climbing poles to install their own phone service several have had narrow escapes from injury thru coming down the poles too quickly.

Miss Sheila Young is not making as rapid a recovery from her illness as her friends would wish.

Will Omer Resign?

Angered by the action of Omer St Germain, elected as a U. F. A. member for St Albert, but recently declaring he could no longer support the Brownlie Government and switching his allegiance to the Liberals, the members of Willow Springs U. F. A. Local have passed a resolution calling on Mr St Germain to resign his seat immediately.

Pitzlers's Auction, March 7.

The Messrs. Ernest and Chris Pitzler will be offering by public sale their entire farm equipment on Wednesday, March 7, commencing at 10 a.m. The equipment consists of farm machinery, horses, cattle, household goods, etc. There will be no reserve on any article; everything will be sold, regardless. There will be no private sales of any articles. Watch for the date—Wed., March 7.

Spruce Grove Rural High.

A program of fourteen numbers and of one hour's duration was presented by the Grade IX pupils of the Spruce Grove High School. Mary Shinbine, the group leader, made a most efficient chairman, as well as being the author of the only reading given and a pitiful dialogue. With the exception of two numbers, each item was original (all copyrights reserved) and no two bore any resemblance. The choruses, accompanied by Miss Phyllis Sherwin upon the piano, were spirited, if not tuneful. The students took entire charge, and item followed item without any perceptible delay. Hats off, gentlemen, to the Grade IX students of Spruce Grove Rural High! —L.L.P.

Spruce Grove News

The whist drive which was held Monday Evening in the Callahan Cafe annex, in aid of St Joseph's R.C. Church, turned out to be a very successful affair, due to the many people being present.

Two popular young ladies of the Grove, accompanied by "Lord Abby," motored to the City to see the picture "Flying Down to Rio," shown at the Capital Theatre. So far as can be ascertained, there were no mishaps, either minor or serious, during the hazardous journey to and from the Grove.

The Ladies' Aid of Spruce Grove United church held a "Social Evening" Wednesday the 14th at the home of Mrs. H. Nelson. An invitation was sent to members of the Stony congregation to participate.

Everyone in the district is doing it — making Summer wavers.

After having repairs made to his damaged opie, Mr Jac Fahr returned to his home in Wembley.

The present thaw has made traveling on side roads rather difficult.

On the Side.

You've heard about the fisherman from Hansen's Corner who caught a pike that had a ten-dollar gold piece in it. When he took it home the Frau remarked that "the poor thing was probably saving up to become a gold fish."

An exchange says this is the time of year when the old money-wallet looks as if it had been on a diet.

This year Easter comes early, and a strange feature in this connection is that Ash Wednesday, the first day of Lent, was St. Valentine's Day; and Easter Saturday is All Fools' Day. Sunday seems to be a special day also, this year; as a look at the calendar shows Dominion Day, Victoria Day and the King's Birthday are all billed for Sundays.

It's realized now the Old Gray Mare had some good features—never did she receive a ticket for not having a tail light.
